Mr. Keith Miller
President & CEO
Express Imagign Systems
624 Rainer Ave South
Seattle, WA

Dear Mr. Miller,

We wish to express our satisfaction on the excellent quality print of the 2 Europa Printers of Express Imaging Systems and PhotoIntel Group, which was installed last year in our Laboratory. This is an opinion shared by us at our Laboratory but also by our many customers in Spain.

We thank Express Imaging Systems and PhotoIntel for helping us to customize the systems and for being open to our ideas as well as willing to provide onsite support.

Our many years in the Spanish market, which make of us a reference Lab in Spain, allow us to acknowledge the most advanced technologies in our industry.

For all the above, we have selected Express Imaging Systems and PhotoIntel as our Partners and suppliers of digital print equipments.

As we have expressed, we would consider buying more Europa Printers, in view of its excellent print quality and for its most advanced High Definition printing technology.

Sincerely,

Ros FotoColor S.L.
